

Group USB speakerphone, powered by ClearOne's market leading HDConference™ audio and fully compatible with Skype™ for Business, enhances any web conferencing, unified communications and video conferencing experience in your personal workspace, huddle rooms, and small and medium-size conference rooms with crystal-clear audio for business class performance.

Acoustic intelligence

- + First-mic priority intelligently activates only the microphone closest to the person speaking, preventing the amplification of ambient noise and room reflections. Adaptive modeling continuously samples room acoustics for any changes

HDConference® Audio

- + Distributed Echo Cancellation® and noise cancellation along with full-duplex performance and automatic level controls guarantee your conference calls to be natural with unmatched audio clarity free of any distractions

Fully Compatible with Skype for Business

- + CHAT 170, though fully-compatible with Skype for Business, it is also compatible with popular web conferencing, unified communications and video conferencing applications like Cisco WebEx®, Citrix® GoToMeeting, ClearOne Spontania™, Google Hangouts, Skype and more

360-degree Coverage

- + Three built-in microphones array with 360-degree audio pick up up to 10 feet. Large loudspeakers for rich, clear conferencing and audio playback
